PURPOSE OF THE NOTICE OF PRIVACY PRACTICES

This Notice of Privacy Practices (the "Notice") is meant to inform you of the uses and disclosures of protected health information (PHI) that we may make. It also describes your rights to access and control your PHI and certain obligations we have regarding the use and disclosure of your protected health information.

Your "protected health information" is information about you created and received by us, including demographic information, that may reasonably identify you and that relates to your past, present, or future physical or mental health or condition, or payment for the provision of your health care.

The Privacy Rule, a federal law, gives you rights over your PHI and sets rules and limits as to who can look at and/or receive your PHI. The Privacy Rule applies to all forms of individuals' PHI, whether electronic, written or oral. The Security Rule is a federal law that requires security for PHI in electronic form. This Notice describes how we may use or disclose your PHI to carry out treatment, payment, or health care operations, as well as other purposes permitted or required by law.

We are required by law to maintain the privacy of your protected health information. We are also required by law to provide you with this Notice of our legal duties and privacy practices with respect to your protected health information, to notify you following a breach of your unsecured protected health information, and to abide by the terms of the Notice that is currently in effect.

We reserve the right to change the terms of this Notice, at which time, the provisions of the newer Notice will be effective for all PHI that we maintain. If this Notice is revised at any time, we will provide all residents with a revised copy, in accordance with the Privacy Rule.
